Dear Shape Up SF Partner:

The collaborating agencies of Shape Up SF have challenged, inspired and pulled each other along over the past three years, to achieve more success together than we ever could have individually on the serious health challenges related to inactivity.

We invite you to attend the presentation and discussion of our preliminary research findings and policy recommendations. After the presentation of findings, you will have an opportunity to enjoy refreshments, meet with other partners and learn how your involvement can help create environments that make it fun and easy to eat well and move more.

Sincerely,
