

A special presentation for Nurses in Santa Clara County

The Imagined Baby:

*How baby behavior can impact In-Hospital
Exclusive Breastfeeding Rates*

Thursday April 14, 2011

10:00 am to 11:00 am

Santa Clara Valley Medical Center

Valley Specialty Clinics

751 South Bascom Avenue, San Jose CA 95128

Basement Auditorium

Speaker:

Jane Heinig, PhD, IBCLC

Executive Director & Academic Administrator

UC Davis Human Lactation Center

"She spoke at Grand Rounds (mostly doctors) and was very well received. Everyone loved it! Many questions, stayed late."

~**Nancy E. Wight**, MD, IBCLC, FABM, FAAP

Attending Neonatologist, Sharp Mary Birch Hospital for Women

Medical Director, Sharp HealthCare Lactation Service

San Diego, CA, USA

Objectives - *By the end of the session, participants will be able to:*

1. Describe at least 2 behaviors that may mislead parents into thinking their infants are hungry.
2. Differentiate the 6 infant states of arousal and awareness
3. Demonstrate the ability to assist parents to distinguish between different types of newborn cues
4. Describe normal sleep patterns in the first 4 months of life
